

NOMAS Manuscript Proposal AND DATA ACCESS form

Please review NOMAS Steering Committee publications protocol before completing this form.
Send completed form to: Carolina Gutierrez at cgutierrez2@med.miami.edu.

Form use: DATA ACCESS PUBLICATION PERMISSION

PART I: Basic Information and Checklist of Key Components:

- 1) Date of submission:
- 2) Proposal Title:
- 3) Writing Chair Name and Contact information:
- 4) Proposed Co-author names and email addresses:

[The Steering Committee may nominate additional authors if special expertise for interpreting NOMAS data is needed.]

- 5) Statistical programmer/analyst (should be included as co-author):
- 6) Have all co-authors reviewed and approved this document? (required)
- 7) Type of study:
 - a) Cohort or sample (I.e., stroke case cohort; prospective stroke-free cohort; MRI cohort; 10% sample, etc.):
 - b) Type of analysis (Cross-sectional, Case-Control, Longitudinal, Outcome, etc.):
 - c) Is study limited to existing data, major recoding or re-measurement of existing data, or collection of new data?
 - d) Does study involve use of any of the following? (Indicate): new assays on blood samples, MRI data, neuropsychological data, or ultrasound imaging data:
 - e) Genetic Information: Do you propose to use:
 - i) DNA samples? Who (where) will perform genotyping?
 - ii) GWAS data? Who (where) will perform analyses?
Is funding available for the Miami analysts?

[Please specify the funding sources in the item #10. Clearly specify limited data set required for the analysis and brief analysis plan in PART II.]

- 8) Responsible IRB for this analysis:
 - a) Does this study require independent IRB approval? Relevant IRB location and protocol number:
 - b) N.B. A NOMAS co-investigator should be listed on any protocols submitted to the IRB that use NOMAS subjects and/or data.
- 9) Indicate work expected to be performed by NOMAS staff, including data management:
- 10) Source of funding, if applicable:
- 11) Conflict of Interest:
 - a) Are these analyses to involve a for-profit corporation?
 - b) Do you or any member of your Writing Group intend to patent any process, aspect or outcome of these analyses?
 - c) Please identify any actual or potential conflicts of interest:

PART II: Description (This section must be limited to 3 pages).

- 1) Introduction [Rationale and background]:
- 2) Research Hypothesis:
- 3) Specific Aims:
- 4) Data [Variables to be used, sample inclusions/exclusions]:
- 5) Brief analysis plan and methods:
- 6) Summary/conclusion (include relevant contribution/strengths of this proposal to the gaps in the literature and potential limitations):
- 7) References:
